

# DECATUR COUNTY COMMUNITY SCHOOLS

*At DCCS, educators infuse traditional learning techniques with innovative technology to ensure students are future ready.*

## **Chromebook Policy Handbook (Accceptable Use Policy)**

The policies, procedures, and information within this document apply to all Chromebooks used at Decatur County Community Schools by students, staff, or guests including any other device considered by the Administration to fall under this policy.

Teachers may set additional requirements for Chromebook use in their classroom.

### **Receiving Your Chromebook:**

Chromebooks will be distributed each Fall during the first week of school. Parents & Students must sign and return the Chromebook Policy Sign-off and Student Pledge document before the Chromebook can be issued to their child. This document will need to be signed during student registration or during new student enrollment.

#### **Insurance:**

Decatur County Community Schools (DCCS) offers Chromebook insurance that may be purchased prior to deployment of the Chromebook to your child. The annual fee will be \$25 per device and must be paid at student registration or **prior to the first claim**. Details of this policy are attached to this packet.

#### **Return:**

Student Chromebooks and accessories (charger and case) will be collected at the end of each school year for maintenance over summer vacation. Students will retain their original Chromebook and case each year while enrolled at DCCS for the lifecycle of the device.

Any student who transfers out of DCCS will be required to return their Chromebook and accessories. If a Chromebook and accessories are not returned, the parent/guardian will be held responsible for payment in full. If payment is not received the parent/guardian will be turned over to a collection agency. If necessary, school personnel will be sent to the residence to retrieve the device and accessories.

### **Taking Care of Your Chromebook:**

Students are responsible for the general care of the Chromebook which has been issued by the school. Chromebooks that are broken or fail to work properly must be reported via the technology ticket system. If a loaner Chromebook is needed, one will be issued to the student until their Chromebook can be repaired or replaced.

#### **General Precautions:**

- No food or drink is allowed next to your Chromebook while it is in use.

- Students should never carry their Chromebook while the screen is open unless directed to do so by a teacher.
- Chromebooks should be shut down when not in use to conserve battery life.
- Chromebooks should never be shoved into a locker or wedged into a book bag as this may break the screen.
- Do not expose your Chromebook to extreme temperature or direct sunlight for extended periods of time. Extreme heat or cold may cause damage to the laptop.
- Only the Chromebook should be kept in the carrying case to limit possible damage to the device.
- Students are not allowed to carry their chromebook while in the lunch line. All chromebooks must be in their case and at their seat.

### **Carrying the Chromebook:**

The protective shell of the Chromebook will only provide basic protection from everyday use. It is not designed to prevent damage from drops or abusive handling. Carrying the Chromebook in the school issued case is required when not in use.

### **Screen Care:**

The Chromebook screen can be damaged if subjected to rough treatment. The screens are particularly sensitive to damage from excessive pressure on the screen.

- Do not lean on top of the Chromebook.
- Do not place anything on top of the Chromebook that could put pressure on the screen.
- Do not place anything in the carrying case that will press against the cover.
- Do not poke the screen.
- Do not place anything on the keyboard before closing the lid (e.g. pens, pencils, notebooks).
- Clean the screen with a soft, dry anti-static, or micro-fiber cloth. Do not use window cleaner or any type of liquid or water on the Chromebook. You can also purchase individually packaged pre-moistened eyeglass lens cleaning tissues to clean the screen. These are very convenient and relatively inexpensive.

## **Using Your Chromebook**

### **At School:**

The Chromebook is intended for use at school each and every day. In addition to teacher expectations for Chromebook use, school messages, announcements, calendars, academic handbooks, student handbooks and schedules will be accessed using the Chromebook. Students must be responsible for bringing their Chromebook to all classes, unless specifically advised not to do so by their teacher.

### **At Home:**

All students are required to take their Chromebook home each night throughout the school year for charging. **Chromebooks must be brought to school each day in a fully charged condition.** Students need to charge their Chromebooks each evening and bring them ready for use daily. Repeat violations of this policy will result in referral to administration and possible disciplinary action. It is recommended that students not carry the AC Adapter power cord (charger) to school. If fully charged at home, the battery will

last throughout the day.

### **Sound:**

Sound is available but should be kept muted unless instructed otherwise by teacher. Students are encouraged to bring earbuds or headphones to use while watching educational videos that are assigned by teachers.

### **Printing:**

Printing is not currently available with Chromebooks, at school or at home. If a teacher insists on something being printed, that teacher will be responsible for printing off the material for the students in his/her class. If needed, students may access their Google Drive from a desktop computer to print material if needed, but this should rarely be used.

### **Managing Your Files and Saving Your Work:**

Students may save documents to their Google Drive, or they may save to an external memory device such as a mini-SD card or USB flash drive. Saving to Google Drive will make the file accessible from any computer with Internet access. Students using Google Drive to work on their documents will not need to save their work (if connected to the internet), as Drive will save each keystroke as the work is being completed. It will be the responsibility of the student to maintain the integrity of their files and keep proper backups. Students will be trained on proper file management procedures.

### **Personalizing the Chromebook:**

Chromebooks must remain free of any decorative writing, drawing, stickers, paint, tape, or labels that are not the property of Decatur County Community Schools. Spot checks for compliance will be done by administration or DCCS Tech Staff at any time.

Students may add appropriate music, photos, and videos to their Chromebook. Personalized media are subject to inspection and must follow the Decatur County Community Schools acceptable use policy.

### **Software on Chromebooks:**

#### **Originally Installed Software:**

Chromebook software is delivered via the Chrome Web Store. These are web-based applications that do not require installation space on a hard drive. Some applications, such as Google Drive, are available for offline use. The software originally installed on the Chromebook must remain on the Chromebook in usable condition and easily accessible at all times.

All Chromebooks are supplied with the latest build of Google Chrome Operating System (OS), and many other applications useful in an educational environment. The Chrome OS will automatically install updates when the computer is shutdown and restarted.

From time to time the school may add software applications for use in a particular course. This process will be automatic with virtually no impact on students. Apps that are no longer needed will automatically be removed by DCCS Tech Staff.

### **Virus Protection:**

Virus protection is unnecessary on the Chromebook due to the unique nature of its design.

### **Additional Software:**

Students are unable to install additional software on their Chromebook other than what has been approved by DCCS.

### **Inspection:**

Students may be selected at random to provide their Chromebook for inspection. The purpose for inspection will be to check for proper care and maintenance as well as inappropriate material being carried into the school.

Procedure for Restoring the Chrome OS: If technical difficulties occur, technical support staff will use the "5-minute" rule. If the problem cannot be fixed in 5 minutes, the Chromebook will be restored to factory defaults. In a One-to-One (1:1) environment, it is impossible for support staff to maintain a working environment for all if too much time is spent fixing every glitch that may arise. Restoring the Chrome OS will restore the device to the state in which the user originally received it. All student created files stored on an external mini-SD card, USB flash drive, or Google Drive will be intact after the operating system is restored. All files saved on the Chromebook that have been synced to Google Drive will be intact. However, all other data (music, photos, documents) stored on internal memory that has NOT been synced will not be restored unless the student requests that an attempt be made to salvage it.

## **Protecting & Storing Your Chromebook:**

### **Chromebook Identification:**

Chromebooks will be labeled in the manner specified by the school. Chromebooks can be identified in the following ways:

- Record of serial number and DCCS asset tag
- Individual's Google Account username

*\*Under no circumstances are students to modify, remove, or destroy identification labels.\**

### **Storing Your Chromebook:**

When students are not monitoring their Chromebook, they should be stored in their lockers with the lock securely fastened. Nothing should be placed on top of the Chromebook, when stored in the locker. Students need to take their Chromebook home with them every night. The Chromebook should be charged fully each night at the student's home. Chromebooks should never be stored in an unattended vehicle.

### **Storing Chromebooks at Extracurricular Events:**

Students are responsible for securely storing their Chromebook during extracurricular events.

### **Chromebooks Left in Unsupervised / Unsecured Areas:**

Under no circumstance should a Chromebook be stored in unsupervised areas. Unsupervised areas include the school grounds and campus, the cafeteria, unlocked classrooms, library, locker rooms, dressing rooms, hallways, bathrooms, extracurricular bus, in a car, or any other entity that is not securely locked or in which there is not supervision.

Unsupervised Chromebooks will be confiscated by staff and taken to the Principal's office. *Disciplinary action will be taken for leaving a Chromebook in an unsupervised location.*

### **Repairing or Replacing Your Chromebook:**

#### **Chromebooks Undergoing Repair:**

- Loaner Chromebooks may be issued to students when they leave their Chromebook for repair at the Tech Office.
- *If repair is needed due to malicious damage, the school may refuse to provide a loaner Chromebook.*
- Repaired Chromebooks will end up with the original factory image as first received. It is important that students keep their school data synced to cloud drives so documents and class projects will not be lost. Personal information that cannot be replaced should be kept at home on an external storage device.
- Students and parents will be charged for Chromebook damage that is a result of misuse or abusive handling. Parents will be billed for Dell parts and labor.

#### **Accidental Damage or Loss Protection:**

As part of the 1:1 Chromebook initiative, DCCS is recommending the purchase of accidental damage insurance prior to the deployment of the Chromebook to your student. DCCS will be the sole provider of this insurance. Under this insurance policy the Chromebooks are protected against accidental damage or loss due to an act of nature.

In cases of theft, DCCS will require that a police report be submitted. Fraudulent reporting of theft will be turned over to the police for prosecution. A student making a false report will also be subject to disciplinary action as outlined by the school discipline code.

This insurance policy does not cover for loss of the Chromebook and/or its accessories, cosmetic damage, or damages caused by intentional misuse and abuse. Decatur County Community Schools will assess the Chromebook damage and repair or replace the device if the damage is determined to be accidental and within the protection guidelines. **Parents/Students will be charged for full replacement cost of a device that has been damaged due to intentional misuse or abuse, even if that student is covered under the insurance policy.**

## **Chromebook Technical Support:**

The Tech Office will be a point of contact for repair of the Chromebooks. After a technology ticket is received, services provided by the Tech Office include:

- Password Identification
- User account support
- Coordination of warranty repair
- Distribution of loaner Chromebooks
- Hardware maintenance and repair
- Operating System or software configuration support
- Restoring Chromebook to factory default
- System software updates

## **Technology Acceptable Use:**

### **General Guidelines:**

- Students will have access to forms of media and communication which is in support of education and research and in support of educational goals and objectives at DCCS. Access to media and communication beyond these specific uses will not be supported or allowed.
- Students are responsible for their ethical and educational use of the technology resources of the DCCS.
- Access to the DCCS technology resources is a privilege and not a right. Each employee, student, and/or parent will be required to follow the rules of the Corporation's Acceptable Use Policy. Violations of these rules will result in the loss of privileges as well as other disciplinary action as defined by the Acceptable Use Policy, Plan of Discipline, or other policies adopted by DCCS.
- Recognizing that it is impossible to define every instance of acceptable and unacceptable use, it will be at the discretion of the IT Director, Tech Staff, and/or school administration to use judgment as to what is acceptable in any undefined instances that may arise.
- Transmission of any material that is in violation of any federal or state law is prohibited. This includes, but is not limited to the following: confidential information, copyrighted material, threatening or obscene material, and computer viruses.
- Any attempt to alter data, the configuration of a computer, or the files of another user, without the consent of the individual, school administrator, or technology administrator, will be considered an act of vandalism and subject to disciplinary action in accordance with school discipline policy.
- All users of the district's technology resources and/or school network must sign the district Acceptable Use Policy and abide by the rules defined in the district's Acceptable Use Policy (this is in addition to the rules and policies that this DCCS Chromebook Policy document contains).

### **Privacy and Safety:**

- Do not go into any chat rooms other than those set up by your teacher or mandated in other distance education courses.
- Do not open, use, or change computer files that do not belong to you.

- Do not reveal your full name, phone number, home address, social security number, credit card numbers, passwords, or passwords of other people.
- Remember that network storage is not guaranteed to be private or confidential. District Administration reserves the right to inspect your files at any time and will take the necessary steps if files are in violation of the district's Acceptable Use Policy.
- If you inadvertently access a website that contains obscene, pornographic, or otherwise offensive material, notify a teacher or the principal immediately so that such sites can be blocked from further access. This is not merely a request. It is a responsibility.

### Legal Propriety:

- All students and staff must comply with trademark and copyright laws and all license agreements. Ignorance of the law is not immunity. If you are unsure, ask the network administrator if you are in compliance with the law.
- Plagiarism is a violation of the DCCS discipline code. Give credit to all sources used, whether quoted or summarized. This includes all forms of media on the Internet, such as graphics, movies, music, and text.

### Email:

- Students in need of email for academic reasons will only be allowed email access through an address assigned by the district. This email access will be through a Google Gmail system managed by DCCS. The interface is heavily monitored by corporation network administrators and is subject to filtering of inappropriate content.
- Always use appropriate language.
- Do not transmit language/material that is profane, obscene, abusive, or offensive to others.
- Do not send mass e-mails, chain letters, or spam.
- No private chatting during class without permission is allowed.
- Email is subject to inspection at any time by school administration.
- Students will only be able to communicate with other DCCS students and faculty.

### Consequences:

- **The student or staff member whose name a system account and/or computer hardware is issued will be responsible at all times for its appropriate use.** Non-compliance with the policies of the Chromebook Policy Handbook or the Corporation's Acceptable Use Policy will result in disciplinary action as outlined by the student handbook and/or other school policies for the user unless there is proof that another is responsible.
- Electronic mail, network usage, and all stored files shall not be considered confidential and may be monitored at any time by the network administrator or other school administrators to ensure appropriate use. The Corporation cooperates fully with local, state, or federal officials in any investigation concerning or relating to violations of computer crime laws. Violation of this policy will result in consequences at the discretion of the administration.

*At DCCS, educators infuse traditional learning techniques with innovative technology to ensure students are future ready.*

## DECATUR COUNTY COMMUNITY SCHOOLS

### Chromebook Policy Handbook Student Pledge

- I will take good care of my Chromebook and know that I will be issued the same Chromebook each year.
- I will never leave my Chromebook unattended in an unsecured or unsupervised location.
- I will never loan out my Chromebook or my username and password to other individuals.
- I will know where my Chromebook is at all times.
- I will charge my Chromebook's battery to full capacity each night.
- I will keep food and beverages away from my Chromebook since they may cause damage to the device.
- I will not disassemble any part of my Chromebook or attempt any repairs.
- I will protect my Chromebook by always carrying it in a secure manner to avoid damage.
- I will use my Chromebook in ways that are appropriate for education.
- I will not place decorations (stickers, markers, writing, etc.) on the Chromebook.
- I understand that the Chromebook I am issued is subject to inspection at any time without notice and remains the property of Decatur County Community School Corporation.
- I will follow the policies outlined in the Chromebook Policy Handbook and the District Acceptable Use Policy while at school as well as outside the school day.
- I will file a police report in case of theft or damage caused by fire.
- I will be responsible for all damage or loss caused by neglect or abuse.
- I agree to pay the full replacement cost of my Chromebook, power cord/charger, carrying case, in the event that any of these items are lost or intentionally damaged.
- I agree to return the Chromebook, power cord/charger, and carrying case in good working condition at the end of each school year.

### CHROMEBOOK RENTAL AGREEMENT

In this agreement, "Chromebook" means Dell Chromebook and all its components, software, battery, charger, and carrying case.

**TERMS:** You will comply at all times with the Decatur County Community Schools' Chromebook Policy Handbook and its guidelines as well as the DCCS Technology Acceptable Use Policy. Any failure to comply may terminate your rights of possession effective immediately and the school may repossess the property. **Chromebooks are assigned to a single individual and are not to be shared.**

**TITLE:** Legal title to the Chromebook is in the school corporation and it shall remain in the school corporation. The student's right of possession and use is limited to and conditioned upon full and complete compliance with this Agreement and the Chromebook Policy Handbook.

**LOSS OR DAMAGE:** If the property is accidentally damaged or incurs loss due to an act of nature, DCCS will assess the Chromebook damage and repair or replace the device under the accidental loss or damage policy. If the property is stolen, a police report must be filed by the student or student's parents/guardian involved in the loss of property. Loss or theft of the property must be reported to the school corporation by the next school day after the occurrence. Fraudulent reporting of theft will be turned over to the police for prosecution.

**REPOSSESSION:** Students not complying with all terms of this agreement and the Chromebook Policy Handbook, including the timely return of the property, will be declared to be in default and authorities may be sent to your place of residence or other location of the Chromebook to take possession.

**TERM OF AGREEMENT:** Your right to use and possession of the property terminates no later than the last day of classes during the school year unless earlier terminated by the School Corporation or upon student withdrawal from DCCS.

**APPROPRIATION:** Your failure to timely return the property and the continued use of it for non-school purposes without the

school's consent will be considered unlawful appropriation of school property.

## **Chromebook FAQ's (Frequently Asked Questions)**

### **Why has DCCS chosen Chromebooks for the secondary level?**

There was a lengthy process of research, including visiting several different schools who had piloted both Chromebooks and iPads at the secondary level. At each school we visited, the resounding answer was Chromebooks! For the type of work that is being done at the secondary level, Chromebooks just work best.

Another reason is that we need to prepare students for the real world. Part of that is learning how to use multiple types of technology and programs. Students will constantly be exposed to new technology their entire lives. They need to learn how to adapt and learn new technology anytime it comes along. Moving from iPads at the elementary to Chromebooks at the secondary level is just the beginning!

### **In what ways will Chromebooks be used in the classrooms?**

The Chromebooks will be used in a variety of ways. From announcements to homework to research to video production, the Chromebooks will allow for students to show their knowledge in a variety of ways. If you would like more specific information, contact your student's teacher on how they will specifically use the devices.

### **Can a student bring in his/her own device instead?**

After a lengthy study, the decision made by the Decatur County Community Schools school board was to purchase and distribute Chromebooks. They decided NOT to be a district that was a "Bring Your Own Device" (BYOD) school system. Having only one type of device makes it easier to manage devices and streamlines teaching in the classroom.

### **Can a student "opt-out" of getting a device?**

In short, no. It would be the same if the student "opted-out" of getting a textbook. This is going to be part of his/her educational career from now on. It is as essential as any other educational tool.

### **What training or support will my child receive?**

Most students have used Google in some form in the past several years already, just not on the Chromebooks themselves. The teachers will guide the students through the process of what they expect from him/her. There will also be instructional videos available shortly on how to do different tasks through Google. They can also find a CSI (student tech team) member who could help guide them through a process.

### **We don't have the internet at home. How will my child complete his/her homework?**

The teachers and staff are well aware that many families do not have continuous access to internet at home. They will be doing their best to work around this issue. Most apps on the Chromebook are designed for students to be able to still work on them offline, as long as they have the application (document, sheet, slide, etc.) opened on their Chromebooks before they leave school. Teachers will be able to help explain that process to the students.

### **Why will the Chromebook not print from my printer?**

The Chromebook runs on Google Cloud Print, which is currently in the testing phases. If something needs to be printed, your student's best option is to log onto his/her Google account on a desktop (or other computer that is linked to a printer) and print from there. The student may also want to discuss with his/her teacher the option of sharing the document with the teacher and the teacher finding a way to print it, if printing is absolutely necessary.

### **What are the expectations for me as a parent?**

- The first expectation is to do what you already do, which is be actively involved in your student's education. Ask them questions, have your student tell you about their work, etc.
- Feel free to set limitations with this device just as you would with any other technological device at home. Your student already signed that he/she would only use this for "educational purposes". If you believe they are doing something other than that, have them put the device away.
- Be aware of whether the device is being taken care of by your student. Though it is primarily the student's job to keep the device safe, it may be necessary for you as a parent to remind your student of the rules he/she signed in their Appropriate Use Policy.
- Report anything you feel is suspicious to the proper school authorities. Also let the school know as soon as possible if the device has been damaged, lost, or stolen.

### **What happens if my child breaks or loses his/her Chromebook?**

1. Contact the tech department as soon as possible. If the Chromebook has become damaged, send it in to school with your student and have him/her take it directly to the tech department. If it has been lost, please email the tech department with as much information as possible. Please also encourage your child to go to the tech department and tell them directly as well. This way if we need to get your child a temporary replacement device, we can do so as soon as possible.

2. If the Chromebook was damaged and you have insurance, you will be billed \$10 for the first incident.

If the Chromebook was damaged and you do not have insurance, you will be billed for whatever the cost is that the school is charged in order to fix it.

If the Chromebook was lost or stolen (whether you have insurance or not), you will be charged the full amount of the Chromebook.

***\*If device was stolen, please be sure to file a police report.***

### **Will students keep the device...**

#### **...in the summer?**

No. Devices will be turned in at the end of the school year (along with the power cord and carrying case). The devices will be cleaned, updated, and safely stored for the summer.

#### **...during breaks (Fall, Holiday, Spring)?**

Yes. During breaks students will be responsible for keeping the devices safely in their care until they return to school. Some students may be working on projects or homework assignments over that time.

#### **...each year?**

Yes. The students will receive the same Chromebook each year. This is to encourage him/her to take care of the device while it is in his/her possession. The lifetime of the Chromebook has not been decided as of yet. The average for other corporations has been 3 years and then they are replaced with updated models.

#### **...after they graduate?**

At this time, we do not have a buy-back program in place for students after graduation.

### **What if I still have questions?**

- Check in with your child about what's going on. Have them "teach" you about the device. Not only will it be good for you, it will be even better for them (the best way to learn is to teach!).
- Email questions to Amy Borns for NDHS (aborns@decaturco.k12.in.us) or Kristen Ross for SDHS (kross@decaturco.k12.in.us).

*At DCCS, educators infuse traditional learning techniques with innovative technology to ensure students are future ready.*

## 2016-2017

# Chromebook Signature Page

### Student Agreement

Rules and regulations are necessary in order to offer technology opportunities to the students. In order to use technology resources, I agree to abide by the DCCS Acceptable Use Policy Guidelines as stated in this document.

### List students in family:

Student Name: \_\_\_\_\_ Grade: \_\_\_\_\_

Student Signature: \_\_\_\_\_ Date: \_\_\_\_\_

Student Name: \_\_\_\_\_ Grade: \_\_\_\_\_

Student Signature: \_\_\_\_\_ Date: \_\_\_\_\_

# DECATUR COUNTY COMMUNITY SCHOOLS

## Accident Protection Plan

DCCS recommends that insurance be purchased prior to the deployment of the Chromebook to your child. The insurance cost is \$25.00 annually for each Chromebook. If a student withdraws from DCCS and then re-enrolls later in the current school year, the coverage purchased at the student's initial registration will be reinstated along with the number of claims made prior to withdrawal.

### \$25 YEARLY PREMIUM

(No Previous Damage)

1st Damage - \$10.00

2nd Damage - \$90.00

3rd Damage - Cost of Damage

### \$45 YEARLY PREMIUM

(Previous Damage)

1st Damage - \$50.00

2nd Damage - Cost of Damage

If a student with previous damage to a device goes 2 years without a 2nd incident, that student will revert to the lower premium.

### UNINSURED

Cost of the Damage

### FAMILY PROTECTION PLAN

- 2 Children      10% off total premium
- 3 Children      15% off total premium
- 4+ Children    20% off total premium

Cord and/or charger are not covered under this plan. Any device and/or charger that is lost or stolen must be replaced through the school at full price to the student/parent.

I wish to enroll my child(ren) in the Protection Plan. (Make checks payable to DCCS.)

\_\_\_\_\_  
(Parent Signature)

I DO NOT wish to enroll my child(ren) in the Protection Plan.

\_\_\_\_\_  
(Parent Signature)

Lost or Intentionally Damaged Device and Accessories: A Chromebook or any of its accessories that are lost (whereabouts unknown) or intentionally damaged is the responsibility of the student and parent involved in the loss of property. The user will not be given another device or accessory to use until the replacement cost of the lost/damaged device or accessory is paid to the school.

- Replacement of the Chromebook (\$317 for devices purchased by DCCS prior to June 2014)
- AC Adapter & power cord - \$55
- Carrying Case - \$40

Revised 5/4/16
